Each teacher is assigned some students. They meet at regular interval to discuss, clarify and share various problems which may be personal, domestic, academic etc. The Department of English has started the mentoring of all assigned mentee students keeping in view the teaching-learning atmosphere, issues and problems raised by students in relation to their studies, transportation, communication with departmental faculties, requirements regarding socio-economic matters etc. Out of the total number of students enrolled in the department in all the three semesters (first, third and fifth) in an academic session, faculty is assigned a definite number students out of the total for proper mentoring of the students from all aspects. Meetings on mentoring are organized for each separate group of students. From the meetings, some issues and problems are sorted out and gradually they are solved with adequate solutions. Generally, two meetings are organized in a semester. But as per the mentee's need some personal or group counseling are organized by the mentor-teacher. Problems Identified and Focused during Mentoring programme: The students are asked and surveyed multiple times and the problems and issues arose in the classroom have been identified precisely by the pupils. The teacher performed as a Mentor only by guiding and mentoring them to resolve their concerns. A brief analytical write-up is presented on mentoring process by each faculty of the department which is provided below

In the meetings with the mentees as mentioned above belonging to all the semesters different types of issues and problems were brought into light from the versions of the mentees. It was found that most of the students had put forward the issues related to transportation, lack of adequate books for examination, financial critical troubles faced by the families etc. With a positive attitude towards the students, some problems were solved in accordance with departmental support and some were proposed

to solve with adequate measures. It was really a beneficial session for the students as the hidden realities could be revealed from them which normally could never be disclosed publicly.

**Findings of the Meetings as a whole:** Through interaction, it was understood that mostly the students had problems with grammar and basic sentence construction, which would help them think and write critically, as demanded by the course that they have undertaken. To estimate their grammatical prowess and to get hold of an idea of their expanse of their creative and critical thinking, it seemed best to me, as a mentor, to put the students through some exercises, especially composition-based ones. These demand thorough reading, understanding and writing skills. The mentees have been graded after two comprehension exercises, where their writing skills and grammatical understanding were put to test. It can be seen from the corresponding grade chart, that the students have been somewhat inconsistent in dealing with the topics. The problems are, as predicted, gross grammatical errors and lack of understanding the topic. Many of the mentees have tried to copy the source text, almost word-for-word, and tried to answer the questions they were asked. A few of them, however, have chosen to think the topic(s) through and deliberated to-the-point answers, without choosing to write superfluously. From the meetings as organized by all the mentors with the respective mentees, different issues came into the limelight and with adequate communication with the mentees; some serious issues were tackled with proper measures. Basically, the following matters were broadly discussed in the meetings

- problems with grammar and basic sentence construction
- Family Financial problems of the students
- Remoteness & lack of proper transportation from their homes
- Lack of text-books
- Delay for classes due to communication problem.

**Actions taken by the department as a whole through mentors:**

- > It was decided that whoever among the mentees needs book facility from the department will be provided sufficient number of books on rotation basis
- > Financial help will be provided through poor Fund, corpus Fund etc. to the applicants among the mentees after adequate verification. (Already a few of the mentees have been offered this facility)
- > It was also decided to discuss the matter of transportation of the students from the remote areas with the college authority as soon as possible.
- > For grammar problem reading, understanding and writing skills exercises were taken.
