Health and Hygiene awareness

Introduction-

In this age of competition human seem to have neglected their own health. At the same time it shows that cleanliness has been neglected. The college organized programs on public awareness that this should stop somewhere and well executed. Activities related to health were implemented through some department of the college. It mainly includes NSS, Sociology, Home science department; various activities were carried out through them. Adoption of NSS in village Bhulai and health awareness was created in the college premises.

A grand donation camp was organized on 22 August 2023 on the occasion of the birthday of Hon'ble Manikraoji Thakare, founder president of the organization. In this camp, 76 blood donors donated blood and proved that blood donation is the best donation in life. Also a blood donation camp was organized on 18 January 2024 the occasion of the birthday of Rahulbhai Thakare, a member and mentor of the organization. Shri. Vasantrao Naik Medical college Yavatmal blood collector team participated for this event. A leprosy awareness program was organized on February 8, 2024.

A health checkup and free drug treatment camp was organized on March 20, 2024 at Bhulai, an adopted village of the National Service Scheme. Sumitrabai Thakare Medical

College Yavatmal and Jijamata Arts College Darwha organized a free health checkup and drug treatment program at Bori (Arab) on 2 April 2024.

Thus various social activities were carried out by the college staff and students. College staff and students happily participated in this activity.

Goals / Objectives

1. To create interest among students to participate in national work.
2. To inculcate the concept that blood donation is the best gift in life and encourage the youth to donate blood.
3. A blood donation camp was organized to tell the needy that blood donation can save lives if they get their blood on time.
4. A health camp was organized to make people aware that health should be kept fit.
5. Inculcating interest in social work among college students.
6. To try to reduce the gap between students in rural and urban areas through social work.
7. To inculcate the vow of community service among the students.
8. Efforts are made to involve the students in social work for the purpose of all-round development of the students.
9. To make students understand the importance of food in life.
10. To inform the students that social service should be started at a young age.
11. Convincing the importance of health, hygiene and time in human life.
12. A sense of cooperation was created in the minds of the students in times of difficulty.
13. Leprosy is an infectious disease and society's attitude towards it is not good. Hence trying to reduce the stigms attached to leprosy.
14. To given information to the students to raise public awareness in the society regarding leprosy.

Contexts-

It is a history till date those social work eras comes to help the society during times of crisis. Wherever our country faced a social crisis then it I saw that social reformers came forward. Social reformers came forward to destroy the tradition customs and superstitions of this country. It is on this ground that the staff and students of our college are coming forward in social work.

A blood camp was organized to create awareness that blood donation is the best donation in human life. This camp made the students aware that we can save the lives of those who need blood by inculcating ideals about blood donation. Health is neglected in rural areas. A health screening camp was organized to create awareness among them regarding health. The society does not have a good attitude towards the leprosy. Therefore, the students were informed about helping them by organizing a program to improve their attitude. Thus, college staff and national service scheme students played a vital role in social work.

Evidence of success-

1. It was realized that young people are donate blood by creating awareness in the rural & city area.
2. We have succeeded in convincing the concept of blood donation is the best donation in rural life.
3. Rural areas were made aware that their health should be taken care of from time to time.
4. Interest in social work developed among the students.
5. The concept of running for help in times of crisis inculcated among the students.
6. Students were informed that food should be taken on time.
7. Successful in understanding how health care should be done in rural areas.
8. Affinity was created among the students towards lepers.
9. Succeeded in instilling a sense of help in students during times of crisis.
